<b>No.</b>	<b>Topic</b>	<b>Highlights</b>	<b>Action Plan</b>
<b>1.</b>	<b>Review of minutes from July</b>	Approved.	
<b>2.</b>	<b>Discussion with Scott Shellenberger</b>	Courts are doing simple cases. Pre-COVID averaged 40-50 per day, now only 8-10. There is a large backlog. October 5 <sup>th</sup> jury trials will resume. Courtrooms have been reconfigured. Over 400 inmates released due to COVID. Mental health and substance use are the cause of most crimes. Will use data on failure to appear post COVID to determine if they'll continue to try and keep offenders out of jail pre-trial. People have to pay for home detention (County and private companies).	Send literature/information about programs to Stephanie to share with Scott/public defender.
<b>3.</b>	<b>Overdose Data to Action (OD2A) Program</b>	Elise Andrews gave overview of overdose data to action program where they will collect and analyze data to evaluate program effectiveness and identify trends. The program ends August 2022. Can be used for other drugs, but not alcohol. Trying to get a just-in-time database and a case management database.
